

# **Sprint 3**

## **SlugCruz**

### **Carpooling App**

**Completion Date: July 22, 2025**  
Release 1.0, July 15th 2025

**Goal:**

**Task listing, organized by user story:**

User story 1 ("As a rider, I want to schedule a ride with a destination, data/time, and frequency (e.g. weekly) so that I can plan my regular travel in advance.") [3]  
What is complete: Store those rides in the database and display them on the drivers tab

Task 1 description: Create a schedule ride feature for riders just like post ride feature for drivers in sprint 1.

- need to work on drivers accepting rider posts

Total for user story 1: 3

User story 2 ("As a driver/rider, I want to be able to add my full name, college affiliation, and major to my profile so that the other person in the carpool can know who I am, making the ride feel safer and more trustworthy") [3]

Task 1 description: Add placeholders where users can add their full name, college affiliation, and major in the profiles and signup tab.

Estimate: 2 hour

Task 2 description: Instead of rider/driver ID, users can see full name, college affiliation, and major.

Estimate: 3 hours

Total for user story 2: 5

**Extra polish:**

- tracking seats in a ride
- assigning names to ride postings
- assigning vehicles to ride postings
- fix navbar ui for sign-in and sign-up

**Team roles:**

*Saranya: Developer, Product Owner*

*Arjun: Developer, Scrum Master*

*Arsh: Developer*

*Brennan: Developer*

*Omid: Developer*

*Gill: Developer*

· **Initial task assignment:**

Saranya: Story 2

Arjun: Story 2

Arsh: Story 1

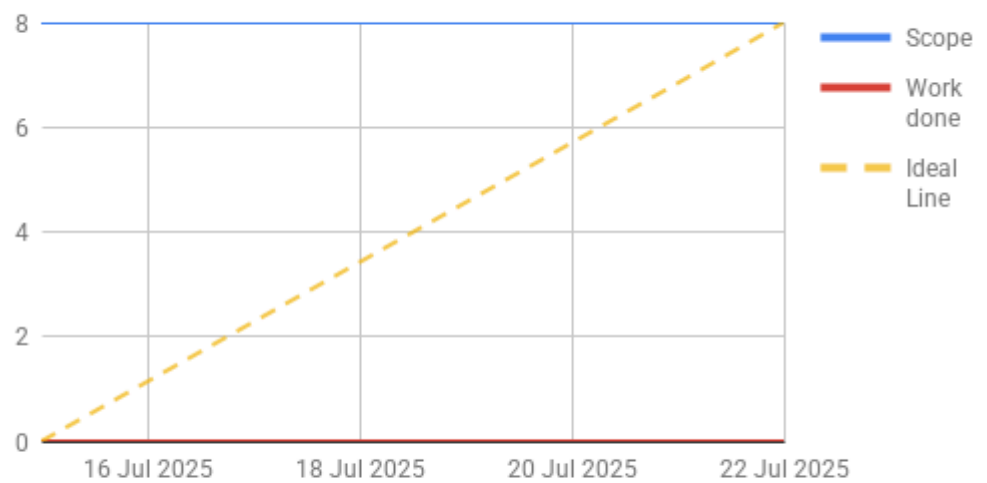

Brennan: Story 1

Omid: Story 1

Gill: Story 2
